About the survey

Government budget decisions – what taxes to levy, what services to provide, and how much debt to take on – have important consequences for all people in society. When governments provide information and meaningful channels for the public to engage in these decisions, we can better ensure public money is spent on public interests.

The Open Budget Survey (OBS) is the world’s only independent, comparative and fact-based research instrument that uses internationally accepted criteria to assess public access to central government budget information; formal opportunities for the public to participate in the national budget process; and the role of budget oversight institutions, such as legislatures and national audit offices, in the budget process.

The survey helps local civil society assess and confer with their government on the reporting and use of public funds. This 8th edition of the OBS covers 120 countries.

Visit www.internationalbudget.org/open-budget-survey for more information, including the full OBS methodology, the 2021 Global and Regional Reports, findings for all surveyed countries, and the Data Explorer.

How comprehensive is the content of the key budget documents that Iraq makes available to the public?

KEY	
●	61-100 / 100
●	41-60 / 100
●	1-40 / 100

Key budget document	Document purpose and contents	Fiscal year assessed	Document content score
Pre-Budget Statement	Discloses the broad parameters of fiscal policies in advance of the Executive's Budget Proposal; outlines the government's economic forecast, anticipated revenue, expenditures, and debt.	2021	Internal Use
Executive's Budget Proposal	Submitted by the executive to the legislature for approval; details the sources of revenue, the allocations to ministries, proposed policy changes, and other information important for understanding the country's fiscal situation.	2020	Not Produced
Enacted Budget	The budget that has been approved by the legislature.	2019	56
Citizens Budget	A simpler and less technical version of the government's Executive's Budget Proposal or the Enacted Budget, designed to convey key information to the public.	2020	Not Produced
In-Year Reports	Include information on actual revenues collected, actual expenditures made, and debt incurred at different intervals; issued quarterly or monthly.	2020	22
Mid-Year Review	A comprehensive update on the implementation of the budget as of the middle of the fiscal year; includes a review of economic assumptions and an updated forecast of budget outcomes.	2020	Not Produced
Year-End Report	Describes the situation of the government's accounts at the end of the fiscal year and, ideally, an evaluation of the progress made toward achieving the budget's policy goals.	2019	Internal Use
Audit Report	Issued by the supreme audit institution, this document examines the soundness and completeness of the government's year-end accounts.	2018	Not Produced

Iraq's transparency score of **6** in the OBS 2021 is near its score in 2019.

What changed in OBS 2021?

Iraq has decreased the availability of budget information by:

- Producing the Year-End Report for internal use only.

Recommendations

Iraq should prioritize the following actions to improve budget transparency:

- Continue to publish the Executive's Budget Proposal (EBP) online in a timely manner. While the Ministry of Finance did not produce or publish a budget proposal in 2020 – the budget year under review in this Open Budget Survey – the EBP was published for the first time on the ministry's website in 2021, which is a great step.
- Publish the Pre-Budget Statement and Year-End Report online in a timely manner.
- Produce and publish the Citizens Budget, Mid-Year Review and Audit Report online in a timely manner.
- Improve the comprehensiveness of the Enacted Budget and In-Year Reports.

Extent of opportunities for public participation in the budget process

Recommendations

To further strengthen public participation in the budget process, Iraq's Ministry of Finance should prioritize the following actions:

- Pilot mechanisms to engage the public during budget formulation and to monitor budget implementation.
- Actively engage with vulnerable and underrepresented communities, directly or through civil society organizations representing them.

Iraq's Parliament Council should prioritize the following actions:

- Allow members of the public or civil society organizations to testify during its hearings on the budget proposal prior to its approval.
- Allow members of the public or civil society organizations to testify during its hearings on the Audit Report.

Iraq's Federal Board of Supreme Audit (FBSA) should prioritize the following actions to improve public participation in the budget process:

- Establish formal mechanisms for the public to assist in developing its audit program and to contribute to relevant audit investigations.

Budget Oversight

The OBS examines the role that legislatures and supreme audit institutions (SAIs) play in the budget process and the extent to which they provide oversight; each country is scored on a scale from 0 to 100 based on 18 equally weighted indicators. In addition, the survey collects supplementary information on independent fiscal institutions (see Box).

The legislature and supreme audit institution in Iraq, together, provide limited oversight during the budget process, with a composite oversight score of **55** (out of 100). Taken individually, the extent of each institution's oversight is shown below:

KEY ● 0-40: Few ● 41-60: Limited ● 61-100: Adequate

Recommendations

Iraq's Parliament Council provides limited oversight during the planning stage of the budget cycle and limited oversight during the implementation stage. To improve oversight, the following actions should be prioritized:

- Legislative committees should examine the Executive's Budget Proposal and publish reports with their analysis online.
- A legislative committee should examine in-year budget implementation and publish reports with their findings online.
- In practice, ensure the legislature is consulted before the executive reduces spending due to revenue shortfalls.

- A legislative committee should examine the Audit Report and publish a report with their findings online.

To strengthen independence and improve audit oversight by the Iraq Federal Board of Supreme Audit (FBSA), the following actions are recommended:

- Ensure audit processes are reviewed by an independent agency.

The emerging practice of establishing independent fiscal institutions

Iraq does not have an independent fiscal institution (IFI). IFIs are increasingly recognized as valuable independent and nonpartisan information providers to the Executive and/or Parliament during the budget process.

**These indicators are *not* scored in the Open Budget Survey.*

Methodology

- Only documents published and events, activities, or developments that took place through 31 December 2020 were assessed in the OBS 2021.
- The survey is based on a questionnaire completed in each country by an independent budget expert:
Salam Shahab; Hussein Ahmed Dakhiel Alsarhan
Governance Center for Public Policies
Arasat Ave., Dist.929- St.21- House 1/66, Karada Baghdad, Iraq
salamjshehab@gmail.com; hussein.ahmed@uokerbala.edu.iq;
dr.husseinalsarhan@gmail.com
- To further strengthen the research, each country's draft questionnaire is also reviewed by an anonymous independent expert, and in Iraq by a representative of the Ministry of Finance.
